Introduction

Bet21 is a sports-based community token. It is developed to create a trustworthy place for the sports lovers. We aim to be one of the world's leading online gaming platforms, which can be a driving force in the development of enterprise and Internet technology.

Innovation continues to be our lifeforce and we pride ourselves on the standard services we provide. We are driven by a shared vision to be the best in the industry.

We feel it is essential for success to give the freedom to innovate. We work hard to cultivate a culture of creativity where we encourage and reward techno-entrepreneurial attitude.

Players can engage themselves with new upcoming elements. We are planning to introduce two such distinct elements, namely Lottery Pool and Betting.

The Binance Smart Chain is used for transactions on the platform, allowing for unprecedented flexibility and speed in bet executions. BSC is a cutting-edge blockchain smart contract system that enables for reduced fees and quick transactions. We provide betting services without the use of a human or business intermediary. The system is safe, and the software and transactions have been proven to be trustworthy and fair. When you consider how simple it is to pay for a bet in Bet21Token and how much larger bets can be made, it's easy to see why Bet21 Betting represents the future of the gaming industry.

OUR GOAL

Our main objective is to create a place where people feel safe to invest, hold their money and further use the tokens for prizes, betting, staking, and sports ticketing.

Our focus is entirely dedicated to sports lovers, and we strive for their betterment.

We at Bet21 commit to safer gaming. We offer Betting and Lottery as enjoyable leisure activities, and we believe that they can only remain this way if you stay in control and play responsibly.

We feel that 'Nothing Is Impossible'; we are looking forward to doing this responsibly and authentically.

OUR CORE VALUES

Community

The gaming community has always been our primary drive. We want our community to believe in and support our project by receiving regular updates and the ability to make money by holding the token. We want to help people go from concept to completion.

Transparency

Unscrupulous practises and hidden development teams have been used in cryptocurrency projects in the past and continue to be used now. We want to blow the roof off with crystal clear objectives, a face for each member of our outstanding and ever-growing crew, and trackable accounts revealing what we spend through our development wallet.

Stability

We want to create a steady growing platform that encourages users to maintain the money in order to make returns by utilising our unique and innovative tokenomics integrated in our smart contract. Each of the core development team's wallet addresses will be public on the website from the beginning, letting anybody to examine their transactions at any time.

Fairness

Our free-to-play model, along with our entirely new environment, will result in the most equitable and transparent gaming economy ever seen. You'll know precisely what you're receiving when you buy something in the game, and it has a real-world worth. You may always sell your investments for a profit at a later date if it is more convenient for you.

Sports Ticketing

Super-Fast, Seamless, Very Secure, Interactive

Paper or conventional electronic tickets are now a thing of past. The future of tickets that allows you to access any event - the Smart Tickets. Smart Ticket is your new way of experiencing events. You can buy the upcoming sports event ticket with Bet21 Token. It facilitates the smoothest access to your desired event, easy and secured, just by showing us your smartphone at the entrance. We don't even need to scan your phone; simply do not leave it at home.

Token details

Token Name: Bet21

Token Symbol: BET

Blockchain: BSC

Total Supply: 100000

Holder rewards: 2%

Burning: 4%, up to 60000 tokens

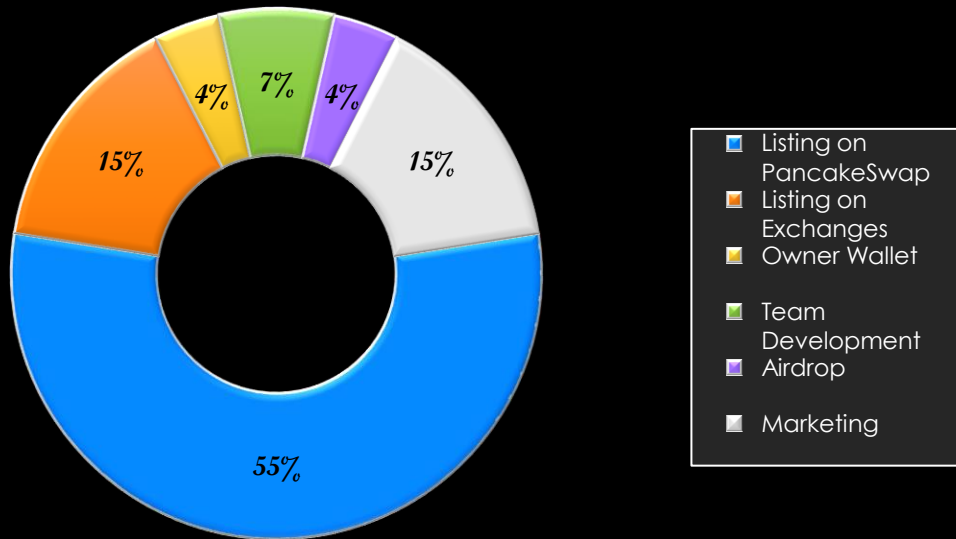

A Few Details About the Taxation of the Bet21 Token and How It Works

Buy and hold Bet21 Token in your wallet to get automatic benefits on every transaction in terms of tax totalling 8%, with 2% tax being redistributed among holders (there's no need to farm, or complete claim paperwork) and 4% tax being burned to limit the supply on every transaction to 60000 tokens. Where 2% of the tax will be utilised for 1% buyback, 1% marketing. Bet operates by charging an 8% charge on each transaction, which is divided into three sections as simply explained above. The Burn is a 4% transaction cost; the more Bet21 Token you have, the more incentives you'll get. The "DEAD" (Burn) wallet is given the greatest amount of money to burn. This section receives 4% of the total. Taxes are used for a variety of purposes and Liquidity is LOCKED FOR TWO YEARS (2023). The overall supply is limited to 100,000 coins, with the burn fee ratio stopping at 60000 tokens. More scarcity, higher prices, and greater stability.

Token Distribution
